

Flammable cladding TAFE NSW Ultimo

Union members may or may not be aware of the relatively recent discovery that some of the buildings at the Ultimo TAFE site have flammable cladding on them.

CPSU NSW regards the slow government action on the removal of this flammable material represents an unacceptable safety risk to our members.

We have now written to the TAFE Managing Director requesting answers on these questions. We will update members with her responses.

The letter to TAFE NSW can be viewed [HERE](#)
